

Sir Robin Wales of England Newham Mayor visited Stechcol Shenzhen Ceramic Art Gallery

6th November 2013
At Stechcol Shenzhen art gallery

6 November afternoon, Mayor of Newham UK, the London Olympics Organizing Committee, Sir Robin Wales and his party come Stechcol Ceramic Crafts Development (Shenzhen) Co., Ltd., and visited Stechcol Ceramic Art Museum.

The sales director, Ms. Kim, arranged staff for Sir Robin Wales to introduce Stechcol's development process, product characteristics and production processes, which focusing on technological innovation and innovation management model. Sir Robin Wales

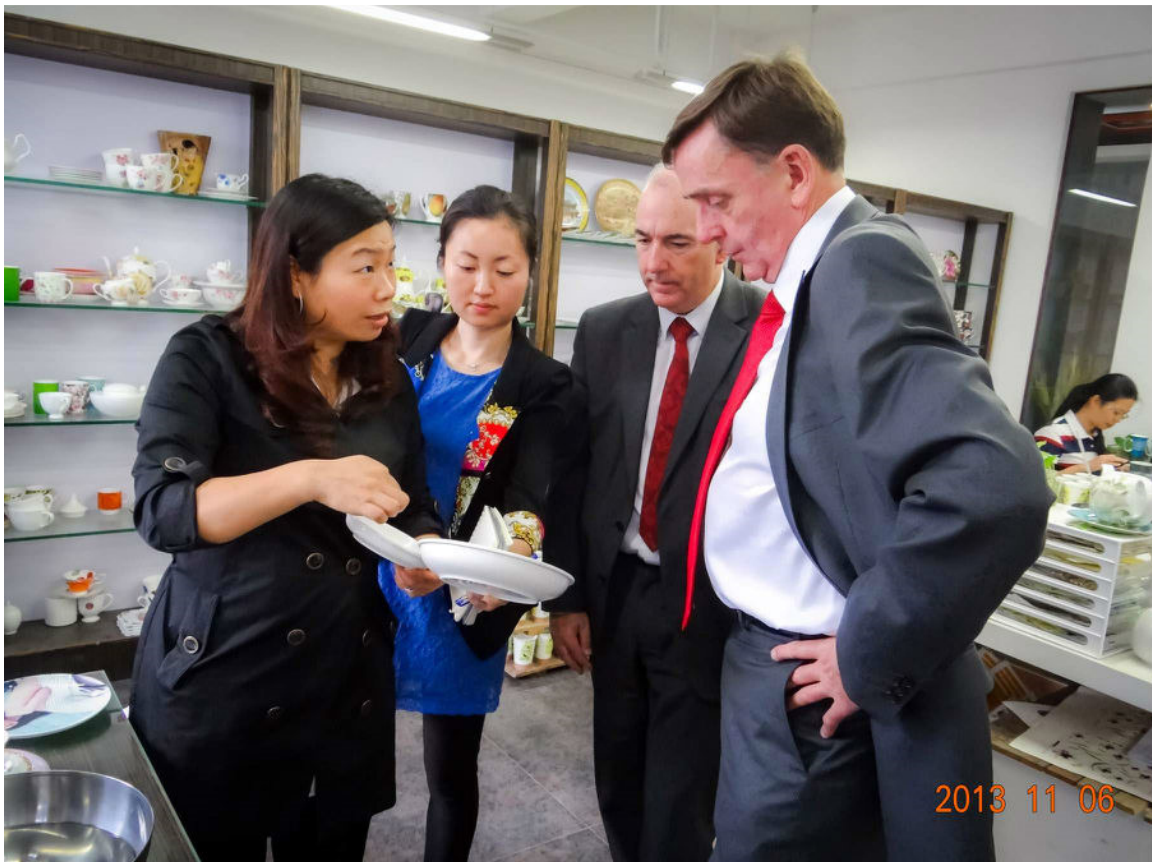

was impressed huge varieties of Stechcol's ceramic craft, and expressed a strong interest on porcelain painting and other patents Stechcol has. Especially he praised Stechcol's excellent work on "national culture of innovation projects - ceramics craft culture of innovation" which is done by R & D Laboratory Center.

Sir Robin Wales said: *"I come along the way south from Beijing, it is the first time I saw such a high-tech ceramic technology with advanced large-scale activity. Stechcol would be a good choice as a partner"*

Sir Robin Wales saw the various lead-free Stechcol cadmium pigments, which has been adhering to the right on Stechcol's environmental green policy, and understand Stechcol's corporate social responsibility is in place with high priority.

At decal R&D center, Ms. Kim introduces the fundamentals of how decal gets on china.

Observing how printed decal could be applied on to the china.

Sir Robin Wales also visited Stechcol's show room which located upstairs of the art gallery

Introduced Sir Robin Wales for history and technology of traditional style china

Thank you very much for Sir Robin Wales of England Newham Mayor visiting Stehcol!
We are glad them visit us here in Shenzhen China long journey from England.
